Salespeople: Sell Courses, Earn Commission with No Capital Outlay or Fees, You Just Earn Commissions

ProTrainings offer over 130 video online courses all of which you can add to your website and business to earn commission on any sales you receive. It is free to set up and there are no ongoing costs and we can offer you support in maximising sales. You will receive a dashboard where you can track all clicks and sales ensuring that you can see in a transparent way the results of your work. Earn additional income by sharing ProTrainings courses with friends, co-workers and businesses. ProTrainings makes selling courses easy by providing customised discount codes and online sales tools that track and credit each sale you make.

Share the News

If you have friends, followers or readers that don't already know about ProTrainings, then sharing ProTrainings online using Facebook, Twitter or your blog is right for you. Using tools that we provide, you're able to easily inform your friends about our courses and each visitor, sign-up and purchase is tracked and attributed to you.

Course Buttons for your websites and emails

If you have a website or blog and you would like to share ProTrainings with your readers, you are able to add buttons to your website. These stand out and are more aesthetically pleasing than links. Each course has its own available button that automatically will tie you and credit you with all traffic.

We Make Sharing Easy

Instead of simply linking back to a ProTrainings course on your Facebook status or Twitter feed, use the ShareThis tool, which will automatically publish the message for you and enables

us to record anyone who clicks through that message. The Share This tool allows you to use Facebook, Twitter, emails & other online resources.

Earn from Word of Mouth referrals

Our reporting allows you to keep track of your progress in spreading the word about ProTrainings. You will be able to see each time someone you refer signs up or purchases a ProTrainings course that have used a special discount code that you can produce. Make codes for shows or special offers and work with us to give discounts where you want to increase sales.

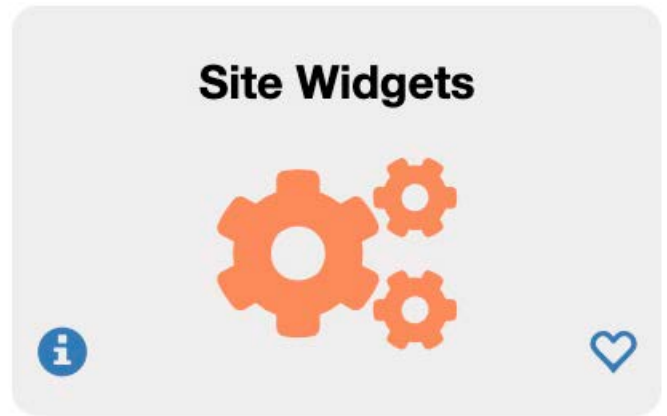

Comprehensive Reseller Dashboard

Comprehensive dashboard where you can track your sales. Wherever your posts on social media or websites appear, the reporting includes the number of clicks your post or button received, the number of sign-ups from those clicks and the number of purchases.

Selling ProTrainings: Quality Courses, Full Support, Residual Income every time they buy

One of the biggest differentiators of ProTrainings from any other training company is the ability to provide quality training every time. In addition, we support our training with full customer service and a strong customer retention system. This means that when you get a sale for ProTrainings, we develop the relationship with that client and allow you to earn commission for that customer for his/her lifetime. We pay once your balance reaches £50 exclusive of VAT direct to your bank account on receipt of your invoice.

SITE WIDGETS. LINKING YOUR WEBSITE TO

PROTRAININGS

A web widget is a web application that is embedded from a user's webpage onto another website to access recourses or to perform a function.

FOR EXAMPLE:

You can install a classroom widget from the **PROTRAININGS** website onto your webpage which means customers can book onto courses you have registered on **PROTRAININGS** directly through your own website.

ANOTHER EXAMPLE:

Installing our video of the week widget onto your website will mean you have regular and up-to-date content constantly refreshing your own website. This is ideal for search engine optimisation (SEO), something Google likes.

FINAL EXAMPLE:

Use our E-Learning widget to earn commission. This is ideal as it will mean you do not lose a lead or miss out on a full sale, especially if your classroom training is too far away for the customer to travel to. You will earn something instead of nothing.

Course introduction Training Summary

Welcome to the online module of your blended TQUK Level 3 Award in First Aid at Work RQF. As this is a blended qualification, you must complete this online module first, followed by two days in the classroom where you will complete the practical parts of the course.

The HSE and the Awarding Organisations now allow workplace first aid courses to be completed in a blended format to reduce the face to face teaching time by allowing you to study some of the course online.

The FAW course is usually a three day 18 contact hour course and the classroom time can be reduced two days with the addition of six hours online training.

This course is in two parts, the first part is this video online training course where you will learn about many different first aid subjects in the FAW course as laid down by the HSE and Skills for Health and the second part is the practical modules which are completed with an approved ProTrainings Instructor nationally in one of the hundreds of regional training centres or at your workplace.

If you need help finding a practical lesson locally or at your workplace, please contact ProTrainings on 01206 805359 or email support@protrainings

This course can be completed as a ProTrainings trade body qualification or a regulated qualification.

You do not need to complete this online course in one sitting, you can start and stop as you need and you watch the videos as many times as you like. There is an area where you can download and print a student manual and other useful downloads and links. As you go through the course you will watch videos, answer knowledge questions and then take a short multiple choice test.

Remedial help is provided if you get any questions wrong, after the test you can select to view remedial help videos, this will show you the videos that relate to any incorrect answers you have given. This feature works when you pass or if you have to take the test again.

Once you pass the test you can instantly print off your completion certificate, Certified CPD statement, as well as an evidence-based learning statement if you need one.

You will need to print out a copy of your certificate to take with you to the classroom course.

Under the regulations you must complete both the online and classroom course within 10 weeks, so we highly recommend arranging your classroom course before starting your online training.

Your training progress has been successful

Endorsed, CPD Certified and ISO Standards

All ProTrainings online qualifications are endorsed through the Skills for Care Scheme with the highest level of recognition and are approved through the CPD Standards services for CPD certification.

ProTrainings: Additional quality at an affordable price.

This is the highest standard of recognised endorsement and only organisations who have a proven history of continued success in making a difference in the training industry can be awarded the Centre of Excellence endorsement. ProTrainings proudly announce that we have received this endorsement for continuous professional training delivery.

As a recognised Skills for Care provider who is already endorsed for delivering training through digital e-learning, classroom and blended formats, this enhanced Centre of Excellence endorsement will take our credibility and quality of training to an advanced state of recognition. But what does this new Centre of Excellence endorsement mean?

The Centre of Excellence status means that we have been able to consistently demonstrate exemplary commitment to meeting the needs of learners in the adult social care sector. This meant we needed to comply with the social model of care and be able to measure the impact of provision on the lives of people who use these services.

We embarked on this provision to prove how consistent ProTrainings services are, to test whether we are meeting a high standard, to evolve, adapt and improve our provision and to place ourselves amongst a small selection of companies who are a Skills For Care Centre of Excellence.

Gaining this Excellence Award has resulted in receiving a designation as a 'Centre of Excellence in Adult Social Care Learning and Development' and we do not plan on stopping our standards here. We will continue to acquire the best and to offer the finest so that lives are rewarded through the training and services we provide.
